## Cool, Rested, & Safe!

Summer is coming. We know that you must be cool and comfortable to get good rest, and you must get good rest to be safe. We also want to be as efficient as possible and not have to run the truck for you to stay cool. Please make sure your APU/Bunk AC is working properly so that you can stay cool without your truck running. If your APU/Bunk AC does not keep you cool and comfortable, please let us know so we can fix it. By the way, last months idle time average for the Company truck fleet, I believe is the lowest average idle time we have ever seen at 18.6%. Thanks so much to all of you for your attention to shutting the truck off when you can. Your efforts do make a difference!

Congratulations to all the graduates. kindergarten, grade school, junior high, high school, college or votech. Graduation at any level is something to be proud of!

### No Violation Winner

This month's no-violation winner is Brian Tatro. Please stop in to pick your prize.

## All About Me.....

Meet Tiffani Gibson, our newest dispatcher out of the Abilene office. Originally from Leon, KS, Tiffani brings both industry knowledge and plenty of personality to the team. Before joining us, she worked for the Kansas Department of Revenue as a CDL examiner, giving her a strong background and understanding of the drivers she now works alongside. She's been married for 10 years to her husband, Kyle, and together they have three boys—Cole, Logan, and Bentley—who keep life busy, loud, and full of energy.

When she's not at work, Tiffani is all about family time—whether that's reading, getting outdoors for fishing and shooting, or just spending time with her crew. She's traveled to many states and hopes to make it to Australia someday to see all the wildlife, but in the meantime, she wouldn't mind checking Buc-ee's off her bucket list. Tiffani says she loves working

here because of the family atmosphere and the people she gets to work with every day. Her friends describe her as mouthy, loyal, and organized—and while she might be a little loud, she'll always have your back. The best advice she lives by is: "You miss 100% of the shots you don't take." Tiffani's personality and team-first mindset make her a natural fit here—welcome to the DBTI family!

Make sure your king pin is latched and your dollies are all the way up.

Know your surroundings. Check your mirrors before you get out of the truck. Make sure your doors are locked and keep them locked. If somebody walks up to your truck, don't open the door, instead roll down the window.

## How far to Dolly?

Do you know anybody who wants to put in unnecessary extra work? Well, that is what you are doing if you continue to crank even after your dollies have touched the ground. Per the request of Chris Selby (#213), we are asking/reminding drivers to stop cranking just before the dolly's touch the ground.

## Who Left the Dirty Trailer?

Have you ever hooked up to an empty trailer, started your inspection and opened the back doors to make sure it is empty and ready to use only to find it is horribly dirty? It sure makes you wonder who dropped it that way. Jeremy Baze #193 requested that we ask all drivers to please consider your fellow driver and clean out your trailers when you drop them.
